**Short resume : Eurostat, AST , 1992 active member in TAO-AFI in
BXL, 2005 active member in SID, 2014 member in U4U**

I have always been a reliable part of trade unions, I targeted together with SID the situation of the contractual agents, before this was taken over by the big syndicats, I tried to interest the brothers and sisters of the trade unions to stop the degradation of some ASTS and the slowly comeback of the old system C and D. Do you remember the arguments why a different CDR system and the new career system was installed. Do You? Based on the arguments of 2002/3 there is no possibility any more for secretaries , but what do we have again? Secretaries at a lower salary doing the same tasks as the AST before.

We have management by champignon. We have management by harassment and bullying. The consequences after the suicide of a colleague: You can not open the windows any more... I do very much mind such management!!!
