pour vous**

I joined the European Commission in 1990 and contributed to the achievement of the internal market at de Secretariat General, for the implementation of EU Law at DG Environment and DG Enterprise. Today, I am committed in the achievement of the Single European Sky in DG Move and its social implications with social partners. I am involved in the extention of this goal to third countries.

I am candidate for reinforcing the social dialogue to achieve common goals such as:

- Improvement and defence of a strong and efficient European Public Service
- Identification of common interests
- Reinforcement of the role of the institutions in the context of the Lisbon Treaty
- Improve gender equality
