

Dionysia LAGIOU

I am policy officer at DG Research & Innovation since 2004. Before that, I worked for more than 20 years at the Linguistic Service of the Council EC.

I believe in a strong public European civil service in which the united EC staff of all categories should have a critical, courageous and responsible attitude towards the numerous challenges lying ahead of us.

I believe in our intellectual ability, will and preparedness to contribute constructively to a sustainable EU staff affairs policy, and I wish to become active among those who strive for opening up participation in a fair and engaged social dialogue.
