

Proposal for a

**REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

**amending the Staff Regulations of Officials and the Conditions of Employment of Other  
Servants of the European Union**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 336 thereof,

Having regard to the Protocol on the Privileges and Immunities of the European Union, and in particular Article 12 thereof,

Having regard to the proposal from the European Commission, submitted following consultation with the Staff Regulations Committee,

After transmission of the draft legislative act to the national Parliaments,

Having regard to the opinion of the Court of Justice,

Having regard to the opinion of the Court of Auditors,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) The European Union, and its more than 50 institutions and agencies, should continue to be equipped with a high-quality European public administration, so as to enable it to achieve its objectives, implement its policies and activities and perform its tasks to the highest possible standard in accordance with the Treaties to meet the challenges, both internal and external, that it will face in the future and to serve the citizens of the Union.
- (2) Consequently, it is necessary to ensure a framework for attracting, recruiting and maintaining highly qualified and multilingual staff, drawn on the widest possible geographical basis from among citizens of the Member States, and with due regard to gender balance, who are independent and adhere to the highest professional standards, and to enable such staff to carry out their duties as effectively and efficiently as possible. In that respect, it is necessary to overcome the current difficulties experienced by the institutions in recruiting officials or staff from certain Member States.
- (2a) Given the size of the European civil service when measured against the objectives of the Union and its population, a decrease in the number of staff of the institutions and agencies of the Union should not lead to any impairment of the performance

of their tasks, duties and functions in accordance with the obligations and powers under the Treaties. In this regard, there is a need for transparency of the personnel costs incurred by each institution and agency with respect to all categories of staff employed by them.

- (2b) The European civil service is expected to live up to the highest standards of professional ethics and to remain independent at all times. To this end, Title II of the Staff Regulations, which provides a framework for rights and obligations, should be further clarified. Any failure by officials or former officials to comply with these obligations should make them liable to disciplinary action.
- (2c) The value of the European civil service lies equally in its cultural and linguistic diversity, which can only be ensured if appropriate balance regarding officials' nationality is secured. Recruitment and appointments should ensure that staff are employed on the broadest geographical basis from among the nationals of all Member States of the European Union without, however, posts being reserved for nationals of any specific Member State. To that end and in order to address significant imbalance between nationalities among officials which is not justified by objective criteria each institution should be given the possibility to adopt justified and appropriate measures. Such measures should never result in recruitment criteria other than those based on merit. The Commission should report to the European Parliament and to the Council on the implementation of the appropriate measures by the institutions.
- (2d) In order to facilitate recruitment on the broadest geographical basis, the institutions should strive to support multilingual and multicultural education for the children of their staff. It is desirable that a contribution of the Union to the financing of the European schools, determined by the budgetary authority in accordance with the relevant rules, be charged to the budget of the Union. Where required for the interest of the institutions' service, the Commission should be able to ask the responsible authorities to reconsider the location of a new European school.
- (3) A broader aim should be to optimise the management of human resources in a European civil service characterised by its excellence, competence, independence, loyalty, impartiality and stability, as well as by cultural and linguistic diversity and attractive recruitment conditions.
- (3a) Officials should serve a nine-month probationary period. When deciding on the establishment of an official, the appointing authority should take into account the report on the probationary period made at the end of that period and the probationer's conduct with respect to his obligations under the Staff Regulations. It should be possible for a report on the probationer to be made at any time if the work of the probationer has proved obviously inadequate. Otherwise a report should only be made at the end of the probationary period.
- (4) In the interest of guaranteeing that the purchasing power of officials and other servants of the European Union develops in parallel with that of national civil servants in central governments of the Member States, it is essential to preserve the principle of a multi-annual mechanism for pay update, known as 'the method', by ensuring its application until the end of 2023 with a review at the beginning of 2022, while including a mechanism for the provisional prolongation of the method. Moreover, in order to remedy the difficulties with the application of the method in

the past, provision should be made for a method to allow for an annual update of all salaries, pensions and allowances in an automatic manner, including an automatic crisis clause. To this effect, the relevant amounts contained in the Staff Regulations and the Conditions of Employment of Other Servants of the European Union should be understood as reference amounts which will be subject to a regular and automatic update. Those updated amounts should be published by the Commission in the C series of the *Official Journal of the European Union* for information purposes. This update mechanism should equally be used for all other instances where such an update is provided for.

- (5) It is important to ensure the quality of statistical data used for updating remuneration and pensions. In accordance with the principle of impartiality, national statistical institutes or other appropriate authorities in the Member States should collect the data at national level and transmit them to Eurostat.
- (6) The potential advantages for officials and other servants of the European Union of the application of the method should be balanced by the reintroduction of the system of a 'levy'. As in the case of the method, the application of the solidarity levy may be provisionally prolonged. It seems appropriate in the present circumstances to increase the solidarity levy, as compared with the level of the special levy applicable from 2004 to 2012, and to provide for a more progressive rate. This is to take account of the particularly difficult economic and social context in the Union, and its ramifications for public finances throughout the Union. The need to consolidate public finances in the Union, including in the short term, requires a swift and particular effort of solidarity on the part of the staff of EU institutions. Such a solidarity levy should thus apply to all officials and other servants of the Union as from 1 January 2014.
- (6a) In its conclusions of 8 February 2013 on the multiannual financial framework, the European Council pointed out that the need to consolidate public finances in the short, medium and long term requires a particular effort by every public administration and its staff to improve efficiency, effectiveness and adjust to the changing economic context. That call reiterated in fact the objective of the 2011 Commission's proposal amending the Staff Regulations of Officials and the Conditions of Employment of Other Servants of the European Union, which strived to ensure cost-efficiency and acknowledged that challenges currently faced by the European Union require a particular effort by each and every public administration and each and every member of its staff to improve efficiency and to adjust to the changing economic and social context in Europe. The European Council called moreover, as part of the reform of the Staff Regulations, for the adjustment of salaries and pensions of all staff of the EU institutions through the salary method to be suspended for two years and for the new solidarity level to be reintroduced as part of the reform of the salary method.
- (6b) In view of those conclusions and in order to respond to the future budgetary constraints as well as to show solidarity of the European civil service with the severe measures taken by Member States as a result of the unprecedented financial crisis and the particularly difficult social and economic context in the Member States and the Union as a whole, it is necessary to provide for the suspension of the method for two years for all remuneration, pensions and allowances of officials and to apply the solidarity levy despite such suspension.

- (7) Demographic changes and the changing age structure of the population concerned require that the pension age be increased, subject however to transitional measures for officials and other servants of the European Union already in service. These transitional measures are necessary to respect acquired rights of officials already in service who have contributed to the notional pension fund for European Union officials. The pension age should also be made more flexible by making it easier for staff to continue to work voluntarily until the age of 67 and by making it possible, in exceptional circumstances and under specific conditions, to work until the age of 70.
- (8) Since the European Union pension scheme is in actuarial balance and this balance has to be maintained in the short and in the long term, staff employed before 1 January 2014 should be compensated for their pension contribution by transitional measures, such as an adjusted accrual rate for the years of service after reaching pensionable age (Barcelona incentive) and by applying half of the reduction for early retirement between the age of 60 and the statutory retirement age.
- (9) The commonly accepted actuarial practice requires that a period of past observations between 20 and 40 years be used for interest rates and salary growth with a view to ensuring the balance of pension schemes. The moving averages for interest rates and salary growth should therefore be extended to 30 years with a transitional period of 8 years.
- (10) The Council requested from the Commission a study and the submission of appropriate proposals on Article 5(4), Annex I.A and Article 45(1) of the Staff Regulations with a view to establishing a clear link between responsibilities and grade and in order to ensure a greater emphasis on the level of responsibility when comparing merits in the context of promotion.
- (11) Taking this request into account, it is appropriate that promotion to a higher grade should be made conditional on personal dedication, improving skills and competences, and performing duties whose importance justifies the official's appointment to that higher grade.
- (12) The career stream in the AD and AST function groups should be restructured in such a way that the top grades will be reserved for a limited number of officials exercising the highest level of responsibilities. Therefore administrators can only progress as far as grade AD 12 unless they are appointed to a specific post above that grade, and grades AD 13 and 14 should be reserved for those staff whose roles entail significant responsibilities. Similarly, officials in grade AST 9 can be promoted to grade AST 10 only in accordance with the procedure laid down in Article 4 and Article 29 paragraph 1 of the Staff Regulations.
- (13) With a view to adjusting career structures in the current domains of AST staff even further to different levels of responsibility and as an indispensable contribution to limiting administrative expenses, a new function group 'AST/SC' for secretarial and clerical staff should be introduced. Salaries and promotion rates should establish a suitable correspondence between the level of responsibility and the level of remuneration. In this way it will be possible to preserve a stable and comprehensive European civil service. The Commission should assess and report on the scale and effects of introducing this new function group, taking particular

account of the situation of women, so that the preservation of a stable and comprehensive European civil service can be ensured.

- (13a) The minimum of two years in the grade before promotion of an official to the next higher grade is maintained in order to allow for faster promotions for high performers. Each institution should ensure that its internal human resources policies use the possibilities provided in the Staff Regulations to allow for appropriate careers of high potential and high performing officials.
- (14) Working hours applied in the institutions should be aligned with those in force in certain of the Member States of the European Union to compensate for the reduction of staff in the institutions. This alignment should take into account the working hours applied in the civil services of Member States. The introduction of a minimum number of weekly working hours will ensure that the staff employed by the institutions is able to carry out the work-load resulting from the European Union's policy objectives while, at the same time, harmonising working conditions in the institutions, in the interest of solidarity throughout the European Union's civil service.
- (15) Flexible working-time arrangements are an essential element of a modern and efficient public administration allowing for family-friendly working conditions and enabling a suitable gender balance within the institutions. It is therefore necessary to introduce an explicit reference to these arrangements in the Staff Regulations.
- (16) The rules on annual travelling time and annual payment of travel expense between the place of employment and the place of origin should be modernised, rationalised and linked with expatriate status in order to make their application simpler and more transparent. In particular, the annual travelling time should be replaced by home leave and limited to a maximum of two and a half days.
- (17) Likewise, the rules on the reimbursement of removal costs should be simplified in order to facilitate their application both for the administration and the staff members concerned. To this end, cost ceilings which take account of the official's or agent's family situation and of the average cost of removal and associated insurance should be introduced.
- (18) Some staff members must frequently go on mission to the other principal places of work of their institution. These situations are at present not adequately taken into account in the rules on missions. These rules should therefore be adapted, in order to allow in such cases the reimbursement of accommodation costs on the basis of a flat-rate sum.
- (18a) It is appropriate to modernise working conditions for staff employed in third countries and to render them more cost-effective while generating cost savings, annual leave entitlements should be adjusted, and a possibility to include a wider range of parameters to fix the allowance for living conditions should be provided without effecting the overall aim of generating cost savings. The conditions of granting the accommodation allowance should be revised to take better account of local conditions and to diminish administrative burden.
- (19) It is appropriate to provide a more flexible framework for the employment of contract staff. The institutions of the European Union should therefore be enabled to engage contract staff for a maximum period of six years in order to perform

tasks under the supervision of officials or temporary staff. In addition, while the vast majority of officials will continue to be recruited on the basis of open competitions, the institutions should be authorised to organise internal competitions which may exceptionally and subject to specific conditions be open to contract staff.

- (20) Transitional arrangements should be provided to enable the new rules and measures to be applied gradually, whilst respecting the acquired rights and legitimate expectations of the staff employed before the entry into force of these amendments to the Staff Regulations.
- (20a) In common with other staff coming under the Staff Regulations, the staff of agencies are covered by the EU pension scheme. Agencies which are fully auto-financed currently pay the employers' contribution to the scheme. In order to ensure budgetary transparency and a more balanced burden sharing, agencies which are partially financed from the general budget of the European Union should pay the part of the employers' contributions which corresponds to the proportion between the agency's revenues without the subsidy from the general budget of the European Union and its total revenues. As this new provision may require the adjustment of the relevant rules on the fees collected by the agencies, it should only apply as of 1 January 2016. Where appropriate, the Commission should submit proposals for the adaptation of these rules.
- (21) In the interest of simplification and of a consistent staff policy, the rules adopted by the Commission to implement the Staff Regulations should apply by analogy to the agencies. However, in order to ensure that the specific situation of agencies may, if necessary, be taken into account, agencies should be entitled to request the Commission's authorisation to adopt implementing rules which derogate from those adopted by the Commission, or not to apply the Commission's rules at all.
- (22) A register of all of the rules adopted to give effect to the Staff Regulations should be set up and administered within the Court of Justice of the European Union. This register, which can be consulted by all institutions, agencies and Member States, will allow for transparency and promote a consistent application of the Staff Regulations.
- (23) In order to harmonise and clarify the rules on the adoption of implementing provisions and having regard to their internal and administrative nature, it is appropriate to confer the relevant decision-making powers on the appointing authority and the authority authorised to conclude contracts.
- (24) Taking into account the high number of temporary staff within agencies and the need to define a consistent staff policy, it is necessary to create a new category of temporary staff and to lay down specific rules for this category.
- (24a) The Commission should continue to monitor the budgetary situation of the Joint Sickness Insurance Scheme and take all necessary steps in case of a structural imbalance of the system.
- (24b) Article 15 of the Protocol n° 7 on Privileges and Immunities of the European Union provides that certain data of officials and other servants are to be communicated to the governments of the Member States.

- (25) In order to achieve the objectives set out in the Staff Regulations, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission notably in respect of certain aspects of working conditions.
- (26) The Commission, when preparing and drawing-up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council,

HAVE ADOPTED THIS REGULATION:

*Article 1*

The Staff Regulations of Officials of the European Union shall be amended as follows:

1. Article 1d shall be amended as follows:

(a) In paragraph (3), the word ‘institutions’ shall be replaced by ‘appointing authorities of the institutions’;

(b) Paragraph 4 shall be replaced by the following:

'4. For the purposes of paragraph 1, a person has a disability if he has a long-term physical, mental, intellectual or sensory impairment which, in interaction with various barriers, may hinder his full and effective participation in society on an equal basis with others. The impairment shall be determined according to the procedure set out in Article 33.

A person with a disability meets the conditions laid down in Article 28(e) if he can perform the essential functions of the job when reasonable accommodation is made.

‘Reasonable accommodation’, in relation to the essential functions of the job, shall mean appropriate measures, where needed, to enable a person with a disability to have access to, participate in, or advance in employment, or to undergo training, unless such measures would impose a disproportionate burden on the employer.

The principle of equal treatment shall not prevent the appointing authorities of the institutions from maintaining or adopting measures providing for specific advantages in order to make it easier for persons with disabilities to pursue a vocational activity or in order to prevent or compensate for disadvantages in their professional careers.’;

1a. In Article 1e, paragraph 1 shall be replaced by the following:

'1. Officials in active employment shall have access to measures of a social nature, including specific measures to reconcile working life with family life, adopted by the institutions and to services provided by the social welfare bodies referred to in Article 9. Former officials may have access to limited specific measures of a social nature.’;

2. Article 5 shall be amended as follows:

(a) Paragraph 1 and 2 shall be replaced by the following:

'1. The posts covered by the Staff Regulations shall be classified, according to the nature and importance of the duties to which they relate, in an administrators' function group (hereinafter 'AD'), an assistants' function group (hereinafter 'AST') and a secretaries and clerks' function group (hereinafter 'AST/SC').

2. Function group AD shall comprise twelve grades, corresponding to managerial, conceptual and analytical as well as to linguistic and scientific duties. Function group AST shall comprise eleven grades, corresponding to executive and technical duties. Function group AST/SC shall comprise six grades, corresponding to clerical and secretarial duties.';

(b) In point (a) of paragraph 3 the words 'and function group AST/SC' shall be inserted after the words 'in function group AST';

(c) Paragraph 4 shall be replaced by the following:

'4. A table showing types of posts is given in Annex I, Section A. By reference to this table, the appointing authority of each institution may define in more detail the duties and powers attaching to each type of post after consulting the Staff Regulations Committee.';

3. Article 6 shall be replaced by the following:

*'Article 6*

1. The establishment plan appended to the section of the budget related to each institution shall indicate the number of posts in each grade and function group.

2. Without prejudice to the principle of promotion based on merit as laid down in Article 45, this plan shall ensure that for each institution, the number of vacant positions at every grade of the establishment plan on 1 January of each year corresponds to the number of officials in the lower grade in active employment on 1 January of the preceding year, multiplied by the rates laid down in Annex I, Section B, for that grade. These rates shall be applied on a five-year average basis as from 1 January 2014.

3. The rates laid down in Annex I, Section B, shall form part of the report referred to in Article 110c.

4. The implementation of the provisions concerning the function group AST/SC and of the transitional provisions laid down in Article 31 of Annex XIII, taking into account the evolution of the need for staff carrying out secretarial and clerical tasks in all institutions and the evolution of permanent and temporary posts in function groups AST and AST/SC shall form part of the report referred to in Article 110c.';

4. Article 9 shall be amended as follows:

(a) Paragraph 1 shall be replaced by the following:

'1. Without prejudice to paragraph 1a, there shall be set up within each institution:

– a Staff Committee, which may be organised in sections for the different places of employment;

- one or more Joint Committees, as appropriate for the number of officials at the places of employment;
- one or more Disciplinary Boards, as appropriate for the number of officials at the places of employment;
- one or more Joint Advisory Committees on professional incompetence, as appropriate for the number of officials at the places of employment;
- a Reports Committee, if required;
- an Invalidity Committee,

which shall perform the functions assigned to them by these Staff Regulations.';

(b) Paragraph 1a shall be replaced by the following:

'For the application of certain provisions of these Staff Regulations, a common Joint Committee may be established for two or more institutions. The other Committees referred to in paragraph 1 and the Disciplinary Board may be established as common bodies by two or more agencies.';

(c) In paragraph 2, the following subparagraph shall be inserted after the first subparagraph:

'The agencies may derogate from the provisions of Article 1 of Annex II regarding membership of Staff Committees to take into account the composition of their personnel. The agencies may decide not to appoint alternate members in the Joint Committee or Committees provided for in Article 2 of Annex II.';

5. In the second sentence of the first subparagraph of Article 10, the word 'institutions' shall be replaced by 'appointing authorities of the institutions';

5a. Article 11 shall be replaced by the following:

*Article 11*

An official shall carry out his duties and conduct himself solely with the interests of the Union in mind; he shall neither seek nor take instructions from any government, authority, organisation or person outside his institution. He shall carry out the duties assigned to him objectively, impartially and in keeping with his duty of loyalty to the Union.

An official shall not without the permission of the appointing authority accept from any government or from any other source outside the institution to which he belongs any honour, decoration, favour, gift or payment of any kind whatever, except for services rendered either before his appointment or during special leave for military or other national service and in respect of such service.

Before recruiting an official, the appointing authority shall examine whether the candidate has any personal interest such as to impair his independence or any other conflict of interest. To that end, the candidate shall inform the appointing authority using a specific form of any actual or potential conflict of interest. In such cases, the appointing authority shall take this into account in a duly reasoned opinion. If

necessary, the appointing authority shall take the measures referred to in paragraph 2 of Article 11a.

This Article shall apply *mutatis mutandis* to officials returning from leave on personal grounds.';

5b. Article 16 shall be replaced by the following:

*'Article 16*

An official shall, after leaving the service, continue to be bound by the duty to behave with integrity and discretion as regards the acceptance of certain appointments or benefits.

Officials intending to engage in an occupational activity, whether gainful or not, within two years of leaving the service shall inform their institution thereof using a specific form. If that activity is related to the work carried out by the official during the last three years of service and could lead to a conflict with the legitimate interests of the institution, the appointing authority may, having regard to the interests of the service, either forbid him from undertaking it or give its approval subject to any conditions it thinks fit. The appointing authority shall, after consulting the Joint Committee, notify its decision within 30 working days of being so informed. If no such notification has been made by the end of that period, this shall be deemed to constitute implicit acceptance.

In the case of former senior officials as defined in implementing measures, the appointing authority shall, in principle, prohibit them, during the twelve months after leaving the service, from engaging in lobbying or advocacy vis-à-vis staff of their former institution for their business, clients or employers on matters for which they were responsible during the last three years in the service.

In compliance with Regulation (EC) No 45/2001 of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data\*, each institution shall publish annually information on the implementation of the preceding paragraph, including a list of the cases assessed.

\* OJ L 8, 12.1.2001, p. 1.';

6. Article 18(1) shall be replaced by the following:

'1. All rights in any writings or other work done by any official in the performance of his duties shall be the property of the European Union where such writings or work relate to its activities or, where such writings or work relate to activities of the European Atomic Energy Community, the property of that Community. The Union or, where applicable, the European Atomic Energy Community shall have the right to acquire compulsorily the copyright in such works.';

6a. Article 19 shall be replaced by the following:

*'Article 19*

An official shall not, without permission from the appointing authority, disclose on any grounds whatever, in any legal proceedings information of which he has knowledge by reason of his duties. Permission shall be refused only where the interests of the Union so require and such refusal would not entail criminal consequences as far as the official is concerned. An official shall continue to be bound by this obligation after leaving the service.

The provisions of the first paragraph shall not apply to an official or former official giving evidence before the Court of Justice of the European Union or before the Disciplinary Board of an institution on a matter concerning a servant or former servant of the European Union.';

6b. In Article 21a, the following paragraph shall be inserted after paragraph 2:

'2a. An official who informs his superiors of orders which he considered to be irregular or likely to give rise to serious difficulties shall not suffer any prejudice on this account.';

6c. The following article shall be inserted after Article 22b:

*'Article 22c*

In accordance with Articles 24 and 90, each institution shall put in place a procedure for the handling of complaints by officials concerning the way in which they were treated after or in consequence of the fulfilment by them of their obligations under Article 22a or 22b. The institution concerned shall ensure that such complaints are handled confidentially and, where warranted by the circumstances, before the expiry of the deadlines set out in Article 90.

The appointing authority of each institution shall lay down internal rules on inter alia:

- the provision to officials referred to in Article 22a(1) or Article 22b of information on the handling of the matters reported by them,
- the protection of the legitimate interests of these officials and of their privacy, and
- the procedure for the handling of complaints referred to in the first paragraph of this Article.';

7. In Article 26a, the word 'institutions' shall be replaced by 'appointing authorities of the institutions';

8. Article 27 shall be replaced by the following:

*'Article 27*

Recruitment shall be directed to securing for the institution the services of officials of the highest standard of ability, efficiency and integrity, recruited on the broadest possible geographical basis from among nationals of Member States of the European Union. No posts shall be reserved for nationals of any specific Member State.

The principle of the equality of Union's citizens shall allow each institution to adopt appropriate measures following the observation of a significant imbalance between

nationalities among officials which is not justified by objective criteria. These appropriate measures must be justified and shall never result in recruitment criteria other than those based on merit. Before such appropriate measures are adopted, the appointing authority of the institution concerned shall adopt general provisions for giving effect to this paragraph in accordance with Article 110.

After a three-year period starting on 1 January 2014, the Commission shall report to the European Parliament and to the Council on the implementation of the preceding paragraph.

In order to facilitate recruitment on the broadest geographical basis, the institutions shall strive to support multilingual and multicultural education for the children of their staff.;

9. In Article 29, paragraph 1 shall be replaced by the following:

'1. Before filling a vacant post in an institution, the appointing authority shall first consider:

(a) whether the post can be filled by:

(i) transfer, or

(ii) appointment in accordance with Article 45a, or

(iii) promotion

within the institution;

(b) whether requests for transfer have been received from officials of the same grade in other institutions, and/or if it was not possible to fill the vacant post through the previously mentioned possibilities, whether to consider lists of suitable candidates within the meaning of Article 30, where appropriate, taking into account the relevant provisions concerning suitable candidates in Annex III and/or whether to hold a competition internal to the institution, which shall be open only to officials and temporary staff as defined in Article 2 of the Conditions of Employment of Other Servants of the European Union;

or to follow the procedure for competitions on the basis either of qualifications or of tests, or of both qualifications and tests. Annex III lays down the competition procedure.

The procedure may likewise be followed for the purpose of constituting a reserve for future recruitment.

While maintaining the principle that the vast majority of officials shall be recruited on the basis of open competitions, the appointing authority may decide, by way of derogation from point (b) and only in exceptional cases, to hold a competition internal to the institution which shall also be open to contract staff as defined in Articles 3a and 3b of the Conditions of Employment of Other Servants of the European Union. This latter category of staff shall be subject to restrictions with regard to this possibility as defined in Article 82 paragraph 6a of the Conditions of Employment of Other Servants and with regard to the specific tasks it was entitled to perform as contractual agents.;

- 9a. Article 30 shall be replaced by the following:

*'Article 30*

For each competition, a selection board shall be appointed by the appointing authority. This board shall draw up a list of suitable candidates.

The appointing authority shall decide which of these candidates to appoint to the vacant posts.

These candidates shall have access to adequate information on appropriate vacancies published by the European institutions and agencies.';

10. The first sentence of Article 31(2) shall be replaced by the following:

'Without prejudice to Article 29(2), officials shall be recruited only at grades SC 1 to SC 2, AST 1 to AST 4 or AD 5 to AD 8.';

11. In the third paragraph of Article 32, the word 'institution' shall be replaced by 'appointing authority of each institution';

- 11a. Article 34 shall be replaced by the following:

*'Article 34*

1. Officials shall serve a nine-month probationary period before they can be established. The decision to establish an official shall be taken on the basis of the report referred to in paragraph 3 as well as on the basis of elements at the disposal of the appointing authority relating to the probationer's conduct with regard to Title II.

Where, during his probationary period, an official is prevented, by sickness, maternity leave under Article 58, or accident, from performing his duties for a continuous period of at least one month, the appointing authority may extend his probationary period by the corresponding length of time. The total length of the probationary period shall in no circumstances exceed 15 months.

2. A report on the probationer may be made at any time before the end of the probationary period if his work is proving obviously inadequate.

This report shall be communicated to the person concerned, who shall have the right to submit his comments in writing within a period of eight working days. The report and the comments shall be transmitted immediately by the probationer's immediate superior to the appointing authority, which shall, within a period of three weeks, obtain the opinion of the Joint Reports Committee on the action to be taken. The appointing authority may decide to dismiss the probationer before the end of the probationary period, giving him one month's notice, or to assign the official to another department for the remaining time of the probationary period.

3. One month at the latest before the expiry of the probationary period, a report shall be made on the ability of the probationer to perform the duties pertaining to his post and also on his efficiency and conduct in the service. This report shall be communicated to the probationer, who shall have the right to submit his comments in writing within a period of eight working days.

Should it recommend dismissal or, in exceptional circumstances, extension of the probationary period in accordance with paragraph 1, the report and the comments

shall be transmitted immediately by the probationer's immediate superior to the appointing authority, which shall, within a period of three weeks, consult the Joint Reports Committee on the action to be taken.

A probationer whose work or conduct has not proved adequate for establishment in his post shall be dismissed.

4. Except where he is in a position forthwith to resume employment elsewhere, a dismissed probationer shall receive compensation equal to three months' basic salary if he has completed more than one year's service, two months' basic salary if he has completed at least six months' service and one month's basic salary if he has completed less than six months' service.

5. Paragraphs 2, 3 and 4 shall not apply to officials who resign before the end of their probationary period.';

11b. In Article 35, the following point shall be inserted after point (f):

'(fa) leave in the interests of the service';

12. In the second indent of point (b) of Article 37, the word 'institutions' shall be replaced by 'appointing authorities of the institutions';

12a. Article 40 shall be amended as follows:

(a) The following paragraph shall be inserted after paragraph 1:

'1a. Article 12b shall continue to apply during the period of leave on personal grounds. The permission under Article 12b shall not be granted to an official for the purpose of his engaging in an occupational activity, whether gainful or not, which involves lobbying or advocacy vis-à-vis his institution and which could lead to the existence or possibility of a conflict with the legitimate interests of the institution.';

Any alteration to the basis of calculation which may arise from changes in family status after the date of payment of the sums in question shall not render the official concerned liable to make repayment.

Travel expenses for children aged less than two years during the entire calendar year shall not be reimbursed.

2. The flat-rate payment shall be based on an allowance per kilometre of geographical distance between the official's place of employment and his place of origin.

The above kilometric allowances and flat-rate supplements shall be updated every year in the same proportion as remuneration.

3. An official whose service is terminated in the course of a calendar year for any reason other than death or who is on leave on personal grounds during part of the year shall, if he is in active employment in the service of an institution of the European Union for less than nine months of that year, be entitled only to part of the flat-rate payment provided for in paragraphs 1 and 2, calculated in proportion to the time spent in active employment.

The ceilings shall take into account the official's family situation at the time of the removal, and the average costs of removal and associated insurance.

General implementing provisions shall be adopted by the appointing authority of each institution to give effect to this paragraph.

2. *'Article 7*

In the year in which an official takes up or ceases to perform his duties in a third country, he shall be entitled to two working days leave for each complete month of service, to two working days for an incomplete month consisting of more than 15 days and to one working day for an incomplete month of 15 days or less.

Where an official, for reasons other than the requirements of the service, has not used up his annual leave before the end of the current calendar year, the amount of leave which may be carried over to the following year shall not exceed 14 working days.';

(-ab) In Article 8, the following paragraph shall be added:

'Officials who take part in professional training courses pursuant to Article 24a of the Staff Regulations and who have been granted rest leave pursuant to the first paragraph of this Article shall undertake, where appropriate, to combine their periods of professional training with their rest leave.';

(-ac) Article 9(1) shall be replaced by the following:

'1. Annual leave may be taken all at once or in several periods, according to what the official desires and taking account of the requirements of the service. It must, however, include at least one period of two consecutive weeks.';

(-ad) Article 10 shall be replaced by the following:

*'Article 10*

1. An allowance for living conditions shall be fixed, according to the official's place of employment, as a percentage of a reference amount. This reference amount shall comprise the total basic salary, plus the expatriation allowance, household allowance and dependent child allowance, less the compulsory deductions referred to in the Staff Regulations or in the regulations adopted to implement them.

Where an official is employed in a country in which living conditions can be deemed equivalent to those normally obtaining in the European Union, no such allowance shall be payable.

In the case of other places of employment, the allowance for living conditions shall be fixed taking into account, amongst others, the following parameters:

- health and hospital environment

- security
- climate
- degree of isolation
- other local living conditions.

The allowance for living conditions fixed for each place of employment shall be reviewed and, where appropriate, adjusted each year by the appointing authority after the opinion of the Staff Committee has been obtained.

The appointing authority may decide to grant a supplementary premium in addition to the allowance for living conditions in cases where an official has had more than one assignment to a place of employment considered difficult or very difficult. This supplementary premium shall not exceed 5% of the reference amount referred to in the first subparagraph and the appointing authority shall duly motivate its individual decisions in order to respect equality of treatment, basing itself on the difficulty level of the previous assignment.

2. If living conditions at the place of employment are such as to put the official at personal risk, a temporary additional allowance shall be paid to him by special reasoned decision of the appointing authority. This allowance shall be fixed as a percentage of the reference amount referred to in the first subparagraph of paragraph 1:

- where the authority recommends to staff not to settle their families or other dependants in the place of employment, provided that they follow that recommendation;
- where the authority decides to reduce temporarily the number of staff serving in the place of employment.

In duly justified cases, the appointing authority may also determine that a post is a non-family posting. The above-mentioned allowance shall be paid to staff members who respect that determination.

3. Detailed provisions for the application of this Article shall be decided by the appointing authority.;

- (a) In the first sentence of Article 11, the word 'Belgium' shall be replaced by 'the European Union';
- (b) Article 13 shall be replaced by the following:

*'Article 13*

In order to ensure as far as possible that officials enjoy equivalent purchasing power irrespective of their place of employment, the weighting referred to in Article 12 shall be updated once a year in accordance with Annex XI. With respect to the update, all values shall be understood as reference values. The Commission shall be responsible for the publication of the updated values within two weeks after the

update in the C series of the Official Journal of the European Union for information purposes.

Where however, in the case of a given country, the variation in the cost of living measured on the basis of the weighting and the corresponding exchange rate is found to have exceeded 5 % since the last update, an interim update for adjusting the weighting in accordance with the procedure laid down in the first paragraph shall take place.';

(ba) Article 23 shall be replaced by the following:

*'Article 23*

On the basis of a list of countries to be defined by the appointing authority, and where the official is not provided with accommodation by the institution, the appointing authority shall either pay the official an accommodation allowance or reimburse the rent paid by the official.

The accommodation allowance shall be paid under presentation of a tenant contract unless the appointing authority waives this obligation for duly motivated reasons linked to practices and local conditions in third countries' place of employment. The accommodation allowance shall be calculated depending primarily on the official's level of duties and subsequently on the composition of his dependent family.

The rent shall be reimbursed, provided that the accommodation has been expressly authorised by the appointing authority and corresponds primarily to the official's level of duties and subsequently to the composition of his dependent family.

Detailed rules for the application of this Article shall be laid down by the appointing authority. This accommodation allowance shall not exceed in any case the costs incurred by the official.';

53. Annex XI shall be replaced by the following:

'Annex XI

Rules for implementing Articles 64 and 65 of the Staff Regulations

## **CHAPTER 1**

### **ANNUAL UPDATE OF REMUNERATION PROVIDED FOR IN ARTICLE 65(1) OF THE STAFF REGULATIONS**

#### **SECTION 1**

#### **FACTORS DETERMINING ANNUAL UPDATES**

*Article 1*

1. *Report from the Statistical Office of the European Union (Eurostat)*

For the purposes of the update provided for in Article 65(1) of the Staff Regulations and in Article 13 of Annex X, Eurostat shall draw up every year before the end of October a report on changes in the cost of living in Belgium and Luxembourg, the economic parities between Brussels and certain places in the Member States and in third countries where necessary, and changes in the purchasing power of salaries in national civil services in central government.

2. *Changes in the cost of living Belgium and Luxembourg*

Eurostat shall draw up an index to measure changes in the cost of living for officials of the Union in Belgium and Luxembourg. This index (hereinafter the "Joint Index") shall be calculated by weighting national inflation (HICP in the case of Belgium and CPI in the case of Luxembourg) between June of the previous year and June of the current year according to the distribution of the staff serving in those countries.

3. *Changes in the cost of living outside Brussels (economic parities)*

(a) Eurostat shall, in agreement with national statistical institutes or other appropriate authorities in the Member States, calculate the economic parities which establish the equivalence of purchasing power:

(i) of the salaries of officials of the Union serving in the capitals of the Member States, except for the Netherlands where The Hague is used instead of Amsterdam, and in certain other places of employment with reference to Brussels,

(ii) of the pensions of officials paid in the Member States with reference to Belgium.

(b) The economic parities shall refer to the month of June each year.

(c) The economic parities shall be calculated in such a way that each basic component can be updated twice per year and checked by a direct survey at least once every five years. Eurostat shall update the economic parities using the change in the Harmonised Index of Consumer Prices of the Member States and the most appropriate indices as defined by the Working Group on Articles 64 and 65 of the Staff Regulations referred to in Article 13.

(d) Outside Belgium and Luxembourg, changes in the cost of living during the reference period shall be measured by the implicit indices. These indices are calculated by multiplying the Joint Index by the change in the economic parity.

4. *Changes in the purchasing power of salaries of national civil servants in central government (specific indicators)*

(a) For the purpose of measuring the percentage change, either upward or downward, in the purchasing power of salaries in the national civil services, Eurostat shall, on the basis of information supplied before the end of September by the national statistical institutes or other appropriate authorities in the Member States as defined in Regulation (EC) No 223/2009 on European Statistics (hereinafter "statistical institutes or other appropriate authorities in the Member States"), calculate specific indicators reflecting changes in the real remuneration of civil servants in central government, between the month of

July of the previous year and the month of July of the current year. The two should include one twelfth of all annually-paid elements.

The specific indicators shall take two forms:

- (i) one indicator for each of the function groups as they are defined in the Staff Regulations,
- (ii) an average indicator weighted to reflect the number of national civil servants corresponding to each function group.

Each of these indicators shall be established in real gross and real net terms. For the transition from gross to net, account shall be taken of statutory deductions and general taxation factors.

To establish the gross and net indicators for the European Union total, Eurostat shall use a sample composed by the following Member States: Belgium, Germany, Spain, France, Italy, Luxembourg, Netherlands, Austria, Poland, Sweden and United Kingdom. The European Parliament and the Council, acting on a Commission proposal under Article 336 TFEU, may adopt a new sample which represents at least 75 % of the European Union GDP and which will apply from the year following its adoption. The results per country shall be weighted in proportion to the appropriate national GDP aggregate measured using purchasing power parities as shown in the most recent statistics published in accordance with the national accounts definitions in the European System of Accounts currently in force.

- (b) At the request of Eurostat, the national statistical institutes or other appropriate authorities in the Member States shall supply it with the additional information which it considers necessary in order to draw up a specific indicator accurately measuring changes in the purchasing power of national civil servants.

If, after further consultation of the national statistical offices, institutes or other appropriate authorities in the Member States, Eurostat finds statistical anomalies in the information obtained or finds it impossible to draw up indicators which measure with statistical accuracy the changes in the real income of civil servants in a given Member State, it shall report to the Commission and provide it with all the material it needs to make an assessment.

- (c) Besides the specific indicators, Eurostat shall calculate appropriate control indicators. One such indicator shall be in the form of data on real per capita emoluments in central government, drawn up in accordance with the national accounts definitions in the European System of Accounts currently in force.

The Eurostat report on the specific indicators shall be accompanied by comments on the differences between these indicators and the above-mentioned control indicators.

## *Article 2*

For the purpose of Article 15 of this Annex the Commission shall regularly survey the recruitment needs of the institutions.

## **SECTION 2**

### **ARRANGEMENTS FOR THE ANNUAL UPDATE OF REMUNERATION AND PENSIONS**

## *Article 3*

1. Under Article 65 of the Staff Regulations, on the basis of the criteria set out in Section 1 of this Annex, the remuneration and pensions shall be updated before the end of each year, with effect from 1 July.

2. The amount of the update shall be obtained by multiplying the Joint Index by the specific indicator. The update shall be in net terms as a uniform across-the-board percentage.

3. The amount of the update thus fixed shall be incorporated, in accordance with the following method, in the basic salary tables appearing in Article 66 of the Staff Regulations and in Annex XIII to the Staff Regulations and in Articles 20 and 93 of the Conditions of Employment of Other Servants:

- (a) the net remuneration and net pension without correction coefficient shall be increased or reduced by the annual update referred to above,
- (b) the new table of basic salaries shall be drawn up by calculating the gross amount which, after deduction of tax having regard to paragraph 4 and compulsory deductions for social security and pension contributions, corresponds to the net amount,
- (c) the conversion of net amounts into gross amounts shall be based on the situation of an unmarried official who does not receive the allowances provided for in the Staff Regulations.

4. For the purposes of applying Regulation (EEC, Euratom, ECSC) No 260/68, the amounts in Article 4 of that Regulation shall be multiplied by a factor composed of:

- (a) the factor resulting from the previous update, and/or
- (b) the rate of update of remuneration referred to in paragraph 2.

5. No correction coefficient shall be applicable in Belgium and Luxembourg. The correction coefficients shall be applicable:

- (a) to the salaries of officials of the European Union serving in the other Member States and in certain other places of employment,
- (b) by way of derogation from Article 82(1) of the Staff Regulations, to European Union pensions paid in the other Member States for the part corresponding to the rights acquired before 1 May 2004. European Union pensions paid for the

part corresponding to the acquired rights acquired as of 1 May 2004 shall be determined on the basis of the ratios between the corresponding economic parities referred to in Article 1 of this Annex and the exchange rates specified in Article 63 of the Staff Regulations for the relevant countries.

The procedures laid down in Article 8 of this Annex concerning the retrospective application of correction coefficients in places of employment with a high rate of inflation shall apply.

6. The institutions shall make the corresponding positive or negative update to the remuneration and pensions of the officials, former officials and other persons concerned with retroactive effect for the period between the effective date and the date of entry into force of the next update.

If this retroactive update necessitates the recovery of sums overpaid, such recovery may be spread over a period of not more than twelve months from the date of entry into force of the next annual update.

## **CHAPTER 2**

### **INTERMEDIATE UPDATES OF REMUNERATION AND PENSIONS (ARTICLE 65(2) OF THE STAFF REGULATIONS)**

#### *Article 4*

1. Intermediate update of remuneration and pensions pursuant to Article 65(2) of the Staff Regulations, taking effect on 1 January, shall be made in the event of a substantial change in the cost of living between June and December (by reference to the sensitivity threshold defined in Article 6 of this Annex) and with due allowance being made for the forecast of the change in purchasing power during the current annual reference period.

2. These intermediate updates shall be taken into account in the annual salary update.

#### *Article 5*

1. In March each year Eurostat shall make a forecast of changes in purchasing power over the period concerned on the basis of the information supplied at the meeting provided for in Article 13 of this Annex.

If this forecast produces a negative percentage, half of this percentage shall be taken into account in the calculation of the intermediate update.

2. The change in the cost of living for Belgium and Luxembourg shall be measured by the Joint Index for the period from June to December of the previous calendar year.

3. For each place for which a correction coefficient has been set (other than Belgium and Luxembourg), an estimate for December of the economic parities mentioned in Article 1(3) shall be calculated. The change in the cost of living shall be calculated according to the rules set out in Article 1(3).

### *Article 6*

1. The sensitivity threshold for the six-month period mentioned in Article 5(2) of this Annex shall be the percentage corresponding to 6 % for a 12 month period.
2. The threshold shall be applied in accordance with the following procedure, subject to application of the second subparagraph of Article 5(1) of this Annex:
  - (a) if the sensitivity threshold is reached or exceeded in Belgium and Luxembourg (as measured by the Joint Index between June and December), the remuneration for all places shall be updated following the annual update procedure,
  - (b) if the sensitivity threshold is not reached in Belgium and Luxembourg, only the correction coefficients of places where the change in the cost of living (as measured by the implicit indices between June and December) has exceeded the threshold shall be updated.

### *Article 7*

For the purposes of Article 6 of this Annex:

The amount of the update shall be the Joint Index, multiplied, where appropriate, by half of the specific indicator forecast if this is negative.

Correction coefficients shall be the ratio between the relevant economic parity and the exchange rate provided for in Article 63 of the Staff Regulations, multiplied, if the update threshold is not reached for Belgium and Luxembourg, by the value of the update.

## **CHAPTER 3**

### **DATE ON WHICH A CORRECTION COEFFICIENT COMES INTO EFFECT (PLACES OF EMPLOYMENT WITH A HIGH COST-OF-LIVING INCREASE)**

### *Article 8*

1. For places with a high cost-of-living increase (as measured by the change in the implicit indices), the correction coefficient shall come into effect before 1 January in the case of the intermediate update, or 1 July in the case of the annual update. This is so as to bring the loss in purchasing power into line with what it would be in a place of employment where the change in the cost of living corresponded to the sensitivity threshold.
2. The effective dates for the annual update shall be as follows:
  - (a) 16 May for places of employment having an inflation higher than 6 %, and
  - (b) 1 May for places of employment having an inflation higher than 10 %.

3. The effective dates for the intermediate update shall be as follows:

- (a) 16 November for places of employment having an inflation higher than 6 %, and
- (b) 1 November for places of employment having an inflation higher than 10 %.

## **CHAPTER 4**

### **CREATION AND WITHDRAWAL OF CORRECTION COEFFICIENTS (ARTICLE 64 OF THE STAFF REGULATIONS)**

#### *Article 9*

1. The appropriate authorities of the Member States concerned, the administration of an institution of the European Union or the representatives of officials of the European Union in a given place of employment can request the creation of a correction coefficient specific to that place.

This request should be supported by objective factors revealing an appreciable difference over some years in the cost of living between that place of employment and the capital of the Member State concerned (except for the Netherlands where The Hague is used instead of Amsterdam). If Eurostat confirms that the difference is appreciable (more than 5 %) and sustainable, the Commission shall enact, by means of delegated acts in accordance with Articles 110a and 110b of the Staff Regulations, a correction coefficient for that place.

2. The Commission shall decide, by means of delegated acts in accordance with Articles 110a and 110b of the Staff Regulations, to withdraw the application of a correction coefficient specific to a certain place. In that case the decision shall be based on one of the following:

- (a) a request by the appropriate authorities of the Member State concerned, the administration of an institution of the European Union or the representatives of officials of the European Union in a given place of employment showing that the cost of living in that place is no longer significantly different (less than 2 %) than that of the capital of the Member State concerned. This convergence should be sustainable and validated by Eurostat,
- (b) the fact that there are no longer any officials and temporary staff of the European Union employed in that place.

## CHAPTER 5

### MODERATION AND EXCEPTION CLAUSES

#### *Article 10*

The value of the specific indicator used for the annual update shall be subject to an upper limit of 2% and a lower limit of -2%. If the value of the specific indicator exceeds the upper limit or is below the lower limit, then the value of the limit shall be used to calculate the update value.

The preceding paragraph shall not apply when Article 11 applies.

The remainder of the annual update resulting from the difference between the update value calculated with the specific indicator and the update value calculated with the limit shall be applied as from 1 April of the following year.

#### *Article 11*

1. If there is a decrease in the real gross domestic product of the European Union for the current year as forecast by the Commission and the specific indicator is positive, only part of the specific indicator shall be used to calculate the value of the update. The remainder of the update value corresponding to the remainder of the specific indicator shall be applied as from a later date in the following year. This remainder of the update value shall not be taken into account for the purpose of Article 10. The value of the gross domestic product, the consequences in terms of split of the specific indicator, and the application date are defined in accordance with the following table:

Gross Domestic Product	Consequences on the specific indicator	Date of payment of the second part
[-0,1 % ; -1 %]	33 % ; 67 %	1 April of year n + 1
] -1 % ; -3 %]	0 %; 100 %	1 April of year n + 1
below -3 %	0 %	-

2. In case there is a gap between the forecast mentioned in the table under paragraph 1 and the final data on gross domestic product made available by the Commission and these final data would modify the consequences as laid down in that table, the necessary corrections, including retroactive adjustments, either positive or negative, shall take place in accordance with the same table.

3. Any updated reference amount resulting from a correction shall be published by the Commission in the C series of the *Official Journal of the European Union* for information purposes.

4. When the application of paragraph 1 has led to the fact that the value of the specific indicator did not serve the update of the remunerations and the pensions, this latter value shall form the basis of the calculation of a future update once the cumulative increase of gross domestic product in the Union measured from the year where paragraph 1 was applied becomes positive. In any case the value mentioned in the first sentence shall be subject by analogy to the limits and the principles laid down in Article 10 of this Annex. The gross domestic product evolution shall be regularly measured by Eurostat for this purpose.

5. If relevant, the legal consequences resulting from the application of Article 10 and this Article shall continue to have full effect even after the date of expiry of this Annex as referred to in Article 15.

## **CHAPTER 6**

### **ROLE OF EUROSTAT AND RELATIONS WITH THE STATISTICAL INSTITUTES OR OTHER APPROPRIATE AUTHORITIES OF THE MEMBER STATES**

#### *Article 12*

It shall be the task of Eurostat to monitor the quality of basic data and statistical methods used to work out the factors taken into account for the update of remuneration. In particular, it shall make any assessments or carry out any studies required for such monitoring.

#### *Article 13*

In March each year Eurostat shall convene a working group composed of experts from the statistical offices of the Member States to be known as the 'Working Group on Article 64 and 65 of the Staff Regulations'.

At this meeting, the statistical methodology and its implementation concerning specific and control indicators, the joint index and economic parities shall be examined.

The information required to produce a forecast of changes in purchasing power for the purposes of the intermediate update of remuneration shall also be provided, together with the data on working hours in central government departments.

#### *Article 14*

At the request of Eurostat, Member States shall inform Eurostat of any factors having a direct or indirect impact on the composition and changes in the remuneration of central government civil servants.

2. The difference established between the adjustment of the contribution rate which would have resulted from the actuarial calculation and the update resulting from the variation referred to in last sentence on paragraph 1 shall not be recovered at any time, or, consequently, taken into account in subsequent actuarial calculations. The contribution rate which would have resulted from the actuarial calculation shall be mentioned in the assessment report provided for in Article 1 of this Annex.';

(b) In Article 4(6), the words '12-year' shall be replaced by '30-year';

55. Annex XIII shall be amended as follows:

- (a) Deleted;
- (b) Articles 10, 14 to 17 and 18(2) shall be deleted;

entry into force of this Regulation] shall continue to be in force exclusively for the purpose of any adjustment required to comply with a judgment of European Courts under Article 266 TFEU on the application of those articles.';

(d) Article 20 shall be amended as follows:

(i) Paragraph 2 shall be deleted;

(ii) The second subparagraph of paragraph 3 shall be replaced by the following:

'Their pensions shall be subject to the correction coefficient only if the residence of the official coincides with their last place of employment or with the country of their place of origin within the meaning of Article 7(3) of Annex VII. However, for family or medical reasons, officials receiving a pension may request the appointing authority to change their place of origin; this decision shall be taken on production by the official concerned of appropriate supporting evidence.';

(iii) The following subparagraph shall be inserted after the second subparagraph of paragraph 3:

'The minimum economic parity referred to in point (b) of Article 3(5) of Annex XI shall be 1.';

(iv) After paragraph 3, the following paragraph shall be inserted:

Officials who entered the service from 1 May 2004 until 31 December 2013 shall be entitled to 1,9 % of their salary referred to therein for every year of pensionable service calculated in accordance with Article 3 of Annex VIII.';

(e) Article 22 shall be replaced by the following:

*'Article 22*

1. Officials with 20 or more years' service on 1 May 2004 shall become entitled to a retirement pension when they reach the age of 60.

Officials aged 35 years or more on 1 May 2014 and who entered the service before 1 January 2014 shall become entitled to a retirement pension at the age shown in the table below:

Age on 1 May 2014	Pensionable age	Age on 1 May 2014	Pensionable age
60 years and above	60 years	47 years	62 years 6 months
59 years	60 years 2 months	46 years	62 years 8 months
58 years	60 years 4 months	45 years	62 years 10 months

48 years	62 years 4 months	35 years	64 years 8 months

Officials aged less than 35 years on 1 May 2014 shall become entitled to a retirement pension at the age of 65 years.

However, for officials aged 45 years or more on 1 May 2014 who entered the service between 1 May 2004 and 31 December 2013, the pensionable age shall remain 63 years.

For officials in service before 1 January 2014 the pensionable age to be taken into consideration for all references to the pensionable age in these Staff Regulations shall be determined in accordance with the above provisions, save as otherwise provided in these Staff Regulations.

2. Notwithstanding Article 2 of Annex VIII, officials who enter the service before 1 January 2014 and remain in service after the age at which they would have become entitled to a retirement pension shall be entitled to an additional increase of 2,5 % of their final basic salary for each year worked after that age, provided that their total pension does not exceed 70 % of final basic salary within the meaning of the second or third paragraph of Article 77 of the Staff Regulations, as the case may be.

However, for officials aged 50 years or over or with 20 or more years' service on 1 May 2004, the increase in pension provided for in the previous subparagraph shall not be less than 5 % of the amount of the pension rights acquired at the age of 60.

The increase shall also be granted in the event of death, if the official has remained in service beyond the age at which he became entitled to a retirement pension.

If, pursuant to Annex IVa, an official who enters the service before 1 January 2014 and working part-time contributes to the pension scheme in proportion to the time worked, the increase in pension entitlements provided for in this Article shall be applied only in the same proportion.

3. If the official retires before reaching the pensionable age as laid down in this Article, only half of the reduction laid down in Article 9(1)(b) of Annex VIII, shall be applied for the period between the age of 60 and the pensionable age.

4. By way of derogation from the second subparagraph of paragraph 1 of the Sole Article of Annex IV, an official to whom a pensionable age of less than 65 years applies in accordance with paragraph 1 shall receive the allowance provided for in that Annex under the conditions laid down therein until the day on which the official reaches his pensionable age.

However, above that age and up to the age of 65 years the official shall continue to receive the allowance until he reaches the maximum retirement pension unless Article 42c of the Staff Regulations applied.;

(f) Article 23 shall be replaced by the following:

*'Article 23*

'1. When Article 52(a) of the Staff Regulations applies and without prejudice to the provisions of Article 50, an official in service before 1 January 2014 shall be retired automatically on the last day of the month in which he reaches the age of 65.
