

# Ivan Cusí Leal

**Commission tailored since 2005, I worked in DG EAC before landing in DG OLAF, Policy and Legal side. I had a brief experience in operations (investigations on EU staff) and I am now contributing to the monitoring of the OLAF Director General in the performance of investigative activities, legislation and more...**

I am a U4U candidate and a strong supporter of unionism, I joined a union on my first day as a contractual agent:

- To ensure that working conditions and social dialogue are maintained in a DG where special AIPN powers are conferred to the Director General: with power comes responsibility; eg: recuperation of night hours still an issue in OLAF
- To provide flexible solutions to colleagues lost in the European public service, a black hole where information is in itself a precious commodity;
- To contribute to the collective efforts of staff to have some input in their future, notably those who entered into service after the 2004 reform and can bring fresh ideas to the civil service
