

Harald STIEBER

**Short resume : AD in DG FISMA (previously MARKT, since 2013)
Economist; Languages: English, German and French; joined the
Commission in 2007 (DG ECFIN); engaged in the European
federalist movement since 2000**

Why I forward my candidacy: Because I share the values of U4U: working for Europe is not « just another job », and the Commission must rebuild a culture of public service excellence; I also believe in the importance of a strong staff representation for achieving the best outcomes collectively, in providing the appropriate signals to management and DG HR.

What are my priorities/pet subjects: contribute to building a better risk management culture, the biggest risk in our organization being to not allow people to flourish and excel in their work; also, further a culture of best practice in the area of management and organization: there are huge differences between DGs and we should understand better what works and why.

My commitments: to be available as a **Contact Point** in DG FISMA as to facilitate access to information and services proposed by U4U.
